

CFI Forum # 8 'Got Weather?' Where/How did you get it?

This program will look at various aircraft accidents that were weather related. In what percentage of aircraft accidents is weather a causal or contributing factor? Also, what weather conditions typically causes accidents? Are CFI's placing enough emphasis on the most common causes of weather-related accidents? Are pilots getting adequate weather briefings? If not, why not?

Directions: In Long Beach, from Cherry Ave, at Wardlow Rd. turn EAST and continue to the STOP Sign. Just beyond the stop sign, turn Right on AirFlite Way, and continue past the security shack to the parking lot. The meeting is in the 3rd floor meeting room

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
